List of Themed Learning days

What are the themed days?

These are purely suggestions of fun days to plan and look forward to for you and your children. They are just a suggestion as a way of spending your days. There are web links, tv links etc. I personally get more excited about a themed day rather than a schedule of individual lessons. I will let the children explore their own ideas for the days too.

What are they not?

They are not designed to overwhelm you and make you feel like you have to do it all. Take what you want from the pack it may even inspire a different outlook on your days.

Do 1 activity or as many as you like and repeat the day if you have more ideas. .
